

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

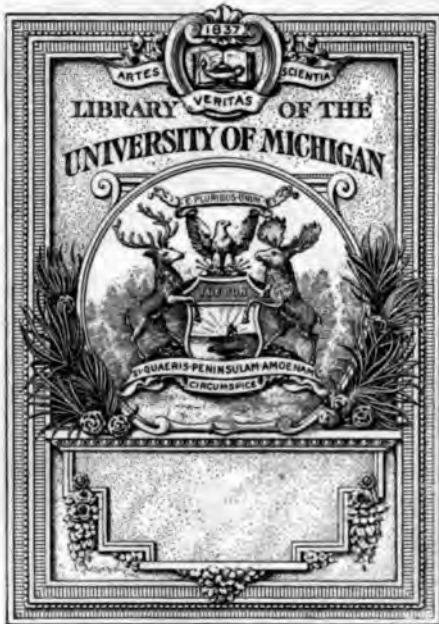

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

spur Island

Sheweth That your Memorialists having Observed in Your Excellency's Speech at the Opening of the Present Session that you was Pleased to recommend to the Consideration of the honorable Commons house of Assembly, the ruinous Condition of Fort George and the necessity there appeared to be of having a Fort upon Cockspur Island. for the Security of the navigation of this River

and to Prevent Malignant distempers being brought into this Province and to enforce the execution of other Salutary Laws thereof and having farther Observed, by your Excellencys Message Subsequent to your Speech, that you again urge and recommend to their Consideration, the expediency of having a Fort built on Some Convenient Spot at the Entrance of this River; and having also seen that in Consequence of your Excellency's Speech and Message, the hon<sup>ble</sup> the Commons house of Assembly appointed a Committee of their hon<sup>ble</sup> house to go down and fix upon a proper Spot of Ground for that Purpose which they having Accordingly done, and reported the Same and the Sum which in their Opinion, it will take to erect a respectable Fort thereon—We therefore with the greatest deference beg leave to lay before you, our apprehensions and fears, lest the the Present fluctuating and uncertain State of Affairs in Europe, should be Productive of a War between Great Britain and Some of the Maritime Powers, which Event may Prove of very Pernicious Consequences to the Trade and Navigation of this Province in its Present Difenceless Condition and Perhaps to the ruin of the Inhabitants of the Principal Towns and the Neighbouring Plantations And to humbly Pray that such a Fort might be Erected as might answer the Salutary Purposes before mentioned, and also be able to Repell the Attempts of Privateers, and to Secure the Navigation of this River from them, and other Sea Rovers. All which we hope and even assure ourselves (from the Experience, we have had of the Wisdom and Publick Spirit of every Branch of the Legislature) will be Speedily done—

And your Memorialists Shall ever Pray

Signed by 70. of the Merchants. Inhabitants. Land-holdes and Captains of Vessels—

A Memorial of Cornelius McCarty Carpenter was read  
in the Words following Viz<sup>t</sup>

To his Excellency James Wright Esq<sup>r</sup> Captain General  
Governor & Commander in Chief in and Over his Majes-  
ty's Province of Georgia the Members of the hon<sup>ble</sup> Coun-  
cil and Commons house of Assembly in General Assembly  
met—

The Memorial of Cornelius McCarty Carpenter—

Humbly Sheweth

That your Memorialist being informed that the Sum  
of £3000 was Some time Since Granted by an Act of As-  
sembly of this Province for Building a new Light house  
upon Tybey Island and that a Bill was now under Consid-  
eration of the hon<sup>ble</sup> Commons house of Assembly for An-  
nulling and making Void the Same from an Opinion as  
your Memorialist humbly Conceives. "that the Present  
Old Light House with Small Repairs. would Stand  
for many Years, and the Public thereby freed from the  
Expense of building a new one for a Considerable time.  
Your Memorialist therefore begs leave to represent to

a Memorial of  
Cornelius  
McCarty  
Concerng. ye  
Light House  
on Tybee Island

your Excellency and the Members of the hon<sup>ble</sup> houses of Assembly "That about the year 1759 the Commissioners appointed for keeping in repair the Light house on Tybey Island did Employ your Memorialist to repair the Same, which he did as fully as was in his Power" That by the many Violent Gales of Wind which have since happened (as he presumes) the Additional Base which your Memorialist then gave to the house, was now in a great Measure rendered Useless. Especially to the North West! the Principal Timbers and Frame of the Original Building much decayed, And the whole (as your Memorialist humbly Conceives from a very late Examination which he personally made of the Same) in a ruinous Condition and Incapable of Standing long. Your Memorialist from these Considerations was therefore Induced to lay before your Excellency and the hon<sup>ble</sup> Members of both houses of Assembly. The following Proposals for your Consideration

1<sup>st</sup> That he will at his own Proper Cost—Charge and Expense, Build or Cause to be built (on such Part of the Island of Tybee as he might be directed by Commissioners appointed for that Purpose) a Light house of the Same height, form and Shape, of the Present light house the Frame to be made of good and Sufficient Pine Timber, Placed on a brick foundation well Secured underneath with Piles or Plank, and Shingled on the out Side from bottom to top with good Cypress Shingles (which will best Secure the Frame) for the Sum of Twelve hundred Pounds Current Money of Georgia—

2<sup>d</sup> He will (tho' he thinks the Undertaking might be Attended with Some Danger to the People Employed in the Work) undertake to repair the Present Light house in the most Effectual Manner it can be done. By Splicing the defective Parts of the Frame, or Putting in New Pieces where it may be done with Safety. Putting on new

Weather Boards where Wanted Glazing, or Closing up the Windows to Prevent Rain beating in repairing the floors and Stairs making the roof tight and Improving the foundation in the fullest Manner in his Power, for the Sum of Six hundred Pounds Current Money of Georgia—

Your Memorialist humbly Submits the Premises to your Excellency & honors Consideration & is &c

His Excellency James Wright Esq<sup>r</sup>

The Hon<sup>ble</sup> { James Habersham

His Excellency addressed himself to the Board in the  
following Manner Viz<sup>t</sup>

Gentlemen

I meet you in Council this afternoon in Order to State  
and lay before you Some Proceedings of the house of  
Assembly In the Course of this Week, which I Conceive  
to be of a very Extraordinary nature, and which I shall  
do as briefly as Possible. On my Return to town on  
Wednesday and Examining the Journal of Proceedings  
of the house of Assembly I was much Surprized to See  
that a Committee appointed by that house to Examine  
the Proceedings of the Courts of Justice, and to enquire  
into the State of Publick Offices, had taken upon them  
of their Own Authority, to Resolve to examine all Per-  
sons on Oath, and did Actually tender an Oath to M<sup>r</sup>  
Moodie the Deputy Secretary, and here I must Observe  
that this Committee had no Authority to Examine any  
Person on Oath, and that all Oath must be lawfull either  
allowed by Common Law, or some Statute, and required  
by Persons having legal Power so to do, and that it is  
a Rule founded on Law Reason and Justice, that no  
Man is bound or shall be Compelled to Accuse himself,

An Address  
from his  
Excell. the  
Goverr. to the  
Members of  
Council

Concerning the  
Commons house  
of Assembly

and that a Witness shall not be Examined, where his Evidence tends either to clear or Accuse himself, and which is also Elucidated and Supported by Act of Parliament, and on M<sup>r</sup> Moodie's refusing to take the Oath tendered it appears that the said Committee declared their Opinion that such Refusal was a Presumptuous breach of the privilege of the house and a daring Contempt of the Authority of the said Committee: and I was equally Surprized to find, that the house had Agreed to the Report made by the Committee and ordered the Speaker to issue his Warrant directed to the Messenger Attending the house, and the Acting Provost Marshal to take and Commit the Body of the said Thomas Moodie Immediately to the Common Goal in Savannah there to remain during the Pleasure of the house, and on which Warrant M<sup>r</sup> Moodie acquainted me he was Actually taken into Custody Yesterday, and I have received further Information, that he is now Confined in the Common Goal in the same Room with a Man lately Convicted of Perjury and who Stood on the Pillory for the Same, and a Negroe Prisoner, and I was also much Surprized to find by the Journal of the Assembly, that on Wednesday last. on the order of the day for taking into Consideration. the entring upon a Tax Bill being read. and a Motion made that the house would order in a Tax Bill for the Present year the Same Passed in the Negative and it was resolved that the house would not enter upon a Tax Bill for the Present Year. the Parishes of S<sup>t</sup> David, S<sup>t</sup> Patrick S<sup>t</sup> Thomas & S<sup>t</sup> Mary's being Represented. which Matters I should have taken Notice of Yesterday had they made a house While the Committee were merely making an Innofensive enquiry and which I thought might Possibly make some discovery of Abuses Committed by Officers, and which on a Proper Representation to me. I should certainly have taken due Notice of. I acquiesced and had they Contented themselves

with exercising moderate Powers. Possibly—I might have Continued Silent. But when I find the Assembly of Georgia and even a Committee of that Assembly, not only Assuming to themselves all the Powers laws and Customs of the Parliament of Great Britain, but even going beyond what I Conceive to be the General and Common Practice of the Committees of the house of Commons there. and when I find the house approves of. and endeavours to Support the Proceeding of the said Committee. by Arbitrarily depriving his Majesty's good Subjects of their Liberty. and when instead of dispatching the necessary business of the Province and doing their duty to their Constituents by Providing Against apparent Dangers they refuse to go upon the Tax Bill for raising the Usual Supplies for the Support of Government. and by the Reasons given for such refusal take upon them (to Call it no worse) in Effect to insist on his Majesty Complying with their request (or rather demand) Previous to their Passing a Tax Bill and that without Observing any degree of delicacy or even decency. in Waiting a Reasonable time for my receiving his Majesty's Commands on the Subject altho' I have Acquainted them that the Conduct I Observed with Respect to this Matter last Session had been approved by his Majesty who Considers the appointing what Places shall Send Representatives to the Assembly as a Matter which by the form and Principles of Government Established for this Province entirely depends upon his Royal discretion. and which his Majesty had Declared he Should always be ready to exercise in Such Manner as should be for the Interest and Welfare of this Province. when it should appear to be necessary either upon my Representation of the State of those Parishes. or on the application of the Inhabitants, there to be indulged in the Privilege of Electing Representatives, this Gentlemen is the answer I received on my Transmitting their Address

## GOVERNOR AND COUNCIL.

and Yours on this Subject during the last Session, and which I received the fifth of October last : and finding that I was not empowered to issue those Writs of Election. I wrote again to his Majesty's Secretary of State on the eighth of October, and on the 25<sup>th</sup> Informed the house that that I had Represented this Matter in Such a light, as I did not doubt but I should receive his Majesty's Permission to issue Writs for Electing Representatives for those Parishes and which in answer to their Message of the Second Instant I told them I was daily expecting to receive tho' there was Scarcely time for it since I wrote last which was by Cap<sup>t</sup> Hall who only Sailed the 21<sup>st</sup> of October and as a Proof of the Impropriety of their hasty Conduct. I have now in my hands an answer to my last letter dated the 11<sup>th</sup> day of December with his Majesty's Authority for issuing those very Writs. If I shall think fit so to do with your Advice, and this Letter I received the very Evening after their Resolution was entered into, a Remarkable Instance of Government Attention to the affairs of this Province and to my Solicitations in its behalf. I say Gentlemen after all this, when I see such Resolutions entered into. and that Such a Spirit Prevails amongst them, I think it a duty Incumbent on me to put a Stop to such Extraordinary and intemperate Proceedings. And as on the one hand you and they have ever found me Anxious to Promote and ready to Concur in every Proper Measure: for the Prosperity of the People and Province, so on the other hand you and they have good reason to believe, that I will not knowingly allow them to assume Powers and do things which I Conceive to be Improper. And I must further Acquaint you. that out of regard and Friendship to the People and Province. I this Morning Communicated my Sentiments on these Matters to the Speaker. and told him Expressly, that I would Dissolve the Assembly at One O'Clock, unless they reconsidered their Proceeding of

this Week. and removed my Objections thereto and which I strongly recommended. I also told him. that I had last night received the letter above mentioned Relative to the Southern Parishes. and on his Observing that the time would be too Short for Communicating what had Passed to the house or Members, I consented to defer going to the Council Chamber 'till four O'Clock this afternoon and as I find notwithstanding this that the house is adjourned till to Morrow Morning (and you well know not with an Intention to reconsider, or alter their former Proceedings) and this without giving me any Notice or Intimation of such adjournment and which is Probably with design not to meet again till Monday (as they Seldom Sit on Saturday Therefore I desire your Opinion whether from the Conduct of the Assembly. as now Stated and laid before you I should or should not Immediately dissolve them by Proclamation— And the Board having Maturely Considered of the Several Matters Stated were Unanimously of Opinion that the said house of Assembly ought to be Immediately dissolved by Proclamation and Advised the Same Accordingly. And also they Requested his Excellency to Permit the said State to be Published in the Gazette of this Province—

the advice of  
the Council to

to the heirs of their bodies—and in default of such issue to Marshella and Mary Ann Delegal and the Survivor of them (the daughters of Edward Delegal deceased the Petitioner's late Brother) the Petitioner would further Observe that since the order of Council aforesaid one of the said Children died and the Survivor was not only wholly Entitled to one Moiety of the five hundred and Eighty two Acres of Land Agreeable to the order of Council which the Petitioner by no means wishes to deprive her of but had (<sup>sic</sup>) acres of land in the province Exclusive the Petitioner begs further leave to Observe that a Sister of his and late Wife to John Deveaux left behind her a Son—Called George Delegal Deveaux who was entirely destitute of any Estate whatever for his Support, and wholly dependent on the Petitioner—that in Strict equity the said Child was Entitled to an equal share of the Lands in Question with the Surviving Child of Edward Delegal both being the Grand Children of the Petitioner's Father to whom the Lands were Originally Allotted, the Petitioner nevertheless only Craves that in Case of the death of himself and his Wife Jane without issue the Moiety of five hundred and Eighty two Acres of Land might be ordered to go to his Nephew George Delegal Deveaux and that his Majesty's Grant for the Same might Pass Accordingly—

Acts whether  
in force or not**

Agreeable to your Excellency's direction that I should make my Report whether the Several Acts following are of force to wit the Militia Act. Negroe Act. Watch Act and Road Act. I have taken them into Consideration and am of Opinion they are. the Militia Act passed in March 1765 to Continue for five years. for the last two Meetings were only Convention no Laws having passed) it Consequently Still is of force the Watch Act Passed in May 1770 to Continue for two years and from thence to the end of the next Session of Assembly. it will therefore be of force for at Least twelve Months to Come. both the Negroe law and Road Law are enumerated in the last Continuation Act which passed also in May 1770 to be of force for one year and from
